

June 2006

Dear National JACL Board Members,

The National Board Handbook was designed with you in mind. It is a tool that provides you with assistance and information that you will need during your term(s). I hope it allows you to make JACL the best organization I know it can be.

Last updated in 2002, the handbook has undergone a complete makeover. The handbook is also in print form. Please note that some contents may appear differently between the CD and binder.

I hope you carry either the CD or binder with you when you travel to various JACL events and meetings.

If you have any feedback, comments, changes, or suggestions, please send that information to National Headquarters to be reviewed in time for the next biennium

Sincerely,

Emily Teruya  
JACL Millennium Club Charter Member
